

KINGROD

Impossible is nothing

HISTORY OF KINGROD

Company Description:

Taiwan Connrod Inc. was established in 1983, which has as well been one of the top professional motorcycle connecting rod manufacturers in Taiwan. Taiwan Connrod Inc. has more than 20 years experience in the field of making all kinds of connecting rods, including watercraft, motorcross, go-kart, snowmobile, out-board and specialized ones.

When it comes to Asian manufacture industry, Japan has always been the leading role, which also has the world-famous, top-class machinery. In order to reach the best quality, Taiwan Connrod Inc. purchases the most advanced machinery from Japan. The quality of our products is undoubtedly competitive with Japanese ones. Welcome to challenge us by providing your drawings or samples, we assure you that we can achieve any impossibility while others can't.

Taiwan Connrod Inc. has always proudly promised our customers the best quality, top reliability, and reasonable prices, which as well has made Taiwan Connrod Inc. strongly outgrow others and be one of the most important roles in this competitive world of motorcycle business.

We offer qualitative connecting rod, which provide solutions to various production engines. These rods exhibit high performance in various involved applications. We also follow the international standard of quality in our manufacturing processes to give full satisfaction to our clients.

Some of the benefits of our connecting rods are:

- Guaranteed safe, dependable, long life.
- Meets or exceeds specifications.
- Confidence in finished product.
- Longer life, lesser wear.

KINGROD

精品連桿 Extreme Series

EXT

All our Extreme Series rods start with super strong aircraft quality 8620 steel, certified to meet or exceed SAE (Society of Automotive Engineers) standards. We constantly pull samples and run tests on the chemical composition of our 8620 raw steel to make sure it meets every index included in the specifications.

What makes Extremes Series undefeatable?

- Give your engine more horsepower.
- Excellent transmit motion ballence.
- Absorb over 20,000RPM.
- More strength and weightless.

REME Series

Specialize Connecting Rod

Our rods are finished honed using only genuine Japan made NISSIN equipment to guarantee dimensional accuracy and absolute roundness of both the big end and the pin bore within +/- 2um.

Our "Extreme" series rods are the highest quality rods we offer. We encourage you to shop around and do your research, because we know that no one else offers such a high quality product at an incredibly affordable price. Compare these manufacturing processes, specs and tolerances with the competition.
